

It has come to my attention that LPFM stations may take priority over current FM translator services and consequently force FM translator services off the air. I strongly urge you: please do NOT give LPFM stations priority over current FM translator services.

K-LOVE is a radio station that is often heard on FM translators. It would be devastating if K-Love were forced off the air by LPFM. K-LOVE serves my community and hundreds of other communities by providing family-friendly programming. K-LOVE supports wholesome values and has a positive and encouraging impact on communities all across America. K-LOVE is an integral up-lifting part of my life and in the lives of our families in California. It is in the public interest to have a positive, encouraging, wholesome radio program. Please do NOT replace K-LOVE with an LPFM service which most likely will not have the same family-friendly programming as K-LOVE. Please keep K-LOVE on the air!

Sincerely,
Rebecca Martinez
